FIERA MILANO, 16-19 NOVEMBER 2027

GENERAL REGULATIONS - FORM B

1. Organization – Date and Venue of the Fair

VITRUM Srl a Socio Unico (hereinafter also VITRUM or Organizer) - in collaboration with Fiera Milano SpA - is organizing **VITRUM 2027** which will be held from November 16 - 19, 2027 in Fiera Milano, Rho.

2. Opening Hours

The Fair is open to visitors from November 16 to 18, from 9.30 a.m. to 6.00 p.m. and November 19, from 9.30 a.m. to 5.00 p.m. non-stop. The Fair is open to Exhibitors from November 16 to 18, from 8.30 a.m. to 6.30 p.m. and November 19 from 8.30 a.m. to 5.30 p.m.

During opening hours Exhibitors must be at their stand, and the products on display must be in open view. The Organizing Committee reserves the indisputable right to change the duration, opening and closing dates and all opening hours of the Fair, without being held liable to indemnify the Exhibitor, by giving the Exhibitor notice thereof at least 30 days prior to the originally scheduled opening date.

Underage children are admitted only if accompanied by an adult, who shall be held to fill out and sign the related liability waiver.

3. Products allowed at the Fair

The following products may be exhibited:

- Raw Materials, Melting and Preheating Systems
- Processing Machinery and Technologies (Flat Glass)
- Processing and Heat Treatment Systems
- Forming and Finishing Technologies (Hollow Glass)
- Handling, Automation, and Robotics Systems
- Finished Glass Products and Articles
- VITRUM ENERGIA (Green and Renewable Technologies)
- Software, Engineering, and Industry Services

4. Machinery on display and/or for demonstrations

Machinery and equipment in operation for demonstration purposes must:

• not disturb neighboring stands and visitors in terms of excessive noise, heat, vibrations, fumes from solvents, etc.

• be positioned flush with the aisles if protected by fixed barriers, even transparent, or otherwise be sufficiently set back from the aisles and separated by distancing barriers, equipped with safety and warning signs that prevent contact with dangerous parts. If the controls for the machines exhibited are located on the aisle side, machines must be set back enough to keep the machine operator from blocking the aisle

- comply with current European Union Directives regarding machine safety (2006/42/EC). Consequently, they must bear the EC mark, with the features required in the Directive

- the Exhibitor shall bear full responsibility for exhibiting and marketing machinery not complying with primary and secondary legislation. In any case, the Exhibitor must ensure compliance with disclosure requirements concerning the marketing of goods not complying with mandatory standards.

- should it be necessary for the machinery to operate without protective devices for reasons of demonstration, inspection or maintenance, the Exhibitor shall implement safety measures (removable barriers, rigid protective shields, etc.) able to ensure a level of protection equivalent to that required by the regulations. Protective components, when removed, must in any case be placed alongside the machine, in a clearly visible location.

- for operating machines and equipment for which testing is legally required, certification must be obtained from the designated Bodies and made available to the authorities and supervisory bodies concerned in case of inspection. It is understood that the Exhibitor will assume all obligations of each of its operators with regard to all activities concerning the exhibited machinery pursuant to Art. 1381 of the Italian civil code.

N.B. it is strictly forbidden to operate machines and/or equipment driven by internal combustion engines inside the pavilions. The fuel tanks of such machines and/or equipment on display must always be kept empty and the batteries disconnected.

Furthermore, compliance with the provisions set forth in the "Technical Regulations" is mandatory.

Exhibitors are liable for any damage to persons or property resulting from the operation of machines displayed at their stand. Any dangerous conditions found by the relevant authorities will lead to automatic shut off of electric power until normal safety conditions have been restored.

5. Exhibitors admitted

Manufacturers, distributors, as well as Italian and foreign agents, representatives and traders of the products mentioned in Article 3 are admitted as Exhibitors, Co-Exhibitors, Represented Companies and/or Brands.

Co-Exhibitors - A Co-Exhibitor is defined as any company that shares exhibition space and related responsibilities with the primary Exhibitor, with specific reference, but not only, to the provisions of Art. 15.

Represented Companies and Brands - A Represented Company and/or Brand is understood to mean any company and/or brand owned directly and/or by third parties (provided that all necessary rights are held) hosted at the primary Exhibitor's exhibition spaces, not sharing the related responsibilities (with specific reference, but not only, to the provisions of Art. 15) which, consequently, remain the sole responsibility of the primary Exhibitor.

Each Co-Exhibitor hosted at the stand must:

- comply with the square footage constraints specified in Art. 6;
- indicate company information in the dedicated section;
- pay the relevant participation fee as per Art. 7.

Each company and/or Brand owned directly and/or by third parties (provided that all necessary rights are held) represented at the stand, must:

- indicate company information in the dedicated section;
- pay the relevant participation fee as per Art. 7.

6. Application for Admission

Companies intending to participate in the Exhibition (hereinafter referred to as: contracting parties) may apply by completing the following steps:

a) sending the Application for Admission (downloadable from the Exhibition website) in PDF format to the email address expo@iegexpo.it, properly filled out, duly signed in all its parts with the company stamp and the signature of the Legal Representative, along with these General Regulations of the Exhibition.

b) Payment of the advance deposit:

- €100 per sqm requested
- €500.00 registration fee
- €1,000.00 mandatory fee for the Digital Merchandising service
- plus VAT on the total amount, if applicable

Only upon payment of this advance deposit, paid within the terms indicated in the application for admission, shall the party be entitled to access the benefits indicated in the exhibition space request form of the same application for admission.

The Application for Admission must be received by **September 10, 2027**, unless explicit exceptions are granted at the sole discretion of the Organizer.

Only applications filled out and signed in compliance with these General Regulations and accompanied by the payment provided for in Art. 8 will be taken into consideration. VITRUM decides at its sole discretion on the acceptance of the applications for admission received. By signing the "Application for Admission" and the "General Regulations", the Exhibitor formally commits to participating in the event, accepting the provisions of these General Regulations and any subsequent additions, amendments, and exceptions adopted by the Organizer, as well as the rules set forth in the "Technical Regulations". Reservations for spaces measuring less than 16 sqm per Exhibitor and/or Co-Exhibitor will not be accepted, unless otherwise specified by the Organizer.

The Organizer reserves the right to place incomplete applications for admission on a waiting list.

Applications for admission will be reviewed until all available exhibition areas are fully allocated.

The Organizer reserves the right to reject specific, additional requests made by the contracting party in the "Notes" field.

In any event, the Organizer retains the right to reject the application for admission in the presence of outstanding administrative balances.

6a Requirements for traceability of financial flows

6a.1 – In its performance of services under these General Regulations, VITRUM is required to comply with all requirements for financial flow traceability pursuant to Art. 3 of Law No. 136 dated 13 August 2010, as amended. More specifically, if the Exhibitor is a public body and/or a public company and/or in any event considered a "contracting authority" pursuant to the aforementioned law, VITRUM:

a) assumes, under penalty of absolute nullity of this Agreement, all financial flows traceability obligations set forth by Art. 3 of Law No. 136 dated 13 August 2010, as amended, also with respect to its subcontractors and sub-contractors across the entire chain of companies involved in the contract to any effect;

b) undertakes to use one or more bank or postal accounts held at banks or at Poste Italiane S.p.A., dedicated, also on a non-exclusive basis, to the specific public contract received;

c) undertakes to immediately inform the contracting authority and the Prefecture – Territorial Government Office – locally responsible, of its counterpart's failure to comply with requirements for financial flow traceability and to terminate the contract also with respect to relationships with its subcontractors.

6a.2 – The Exhibitor deemed to be the "contracting authority" pursuant to the aforementioned law is required to complete the Application for Admission, under penalty of nullity of such Application, with the mandatory CIG code (Tender Identification Code) and – where necessary – the CUP Code (Unique Project Code) regarding the underlying public investment.

6a.3 – The Exhibitor considered a "contracting authority" pursuant to the aforementioned law shall be entitled to terminate the contract, pursuant to and for the purposes of Art. 1456 of the Italian Civil Code, should VITRUM infringe the obligation as per letter b) in paragraph 6a.1 above and/or, in general, infringe – also with respect to its subcontractors and sub-contractors in the chain of companies which may be involved in the contract to any effect – any requirements for financial flow traceability as per Art. 3 of Law No. 136 dated 13 August 2010, as amended.

7. Participation fees

7.1 – Participation Rates
The relevant basic participation fee is differentiated as follows:

- Rate for one open side: €230.00 per sqm
- Rate for two open sides: €242.00 per sqm
- Rate for three open sides: €253.00 per sqm
- Rate for four open sides: €265.00 per sqm

The fee for any additional area obtained by means of raised platforms or similar solutions is equal to 60% of the exhibition space rate, to which the flat-rate service fee must be added, which remains unchanged at €34.00/sqm for the services listed under Art. 11.1. The same surcharges and reductions applied to the exhibition spaces mentioned above shall apply to the raised platform areas.
7.2 - The registration fee is set at **€500.00 each** per Exhibitor, Co-Exhibitor, Represented Company and/or Brand.
7.3 - The mandatory fee for the basic Digital Merchandising service (see Art. 11.2) is set at **€1,000.00 each** per Exhibitor, Co-Exhibitor, Represented Company and/or Brand.
7.4 - The fee for flat-rate services, unchanged at **€34.00/m²** for the services listed in Art. 11.1
VAT at 22% must be added to the total of the above-mentioned amounts, where applicable. In the event of VAT exemption pursuant to Articles 8/8bis/9 of Presidential Decree (DPR) 633/72 and any subsequent updates, two declarations of intent must be attached: one made out to VITRUM and one made out to Fiera Milano SpA for any additional services.
As of January 1, 2011, in compliance with Legislative Decree No. 18/2010, implementing EU Directive No. 8/2008, foreign taxable exhibitors are no longer required to pay VAT on the participation fee and services related to the exhibition, with the exception of non-taxable VAT entities (e.g., private individuals). In order to properly identify the category of the contracting party (taxable person/non-taxable person), it is essential to provide the Organizer, when filling out the application form, with the VAT number/Identification code or other suitable documentation proving company status rather than individual status.
Therefore, it is absolutely necessary that the applications for admission include the correct information as stated above; otherwise, invoices will be issued subject to Italian VAT.
In order to comply with the obligations introduced by Art. 1, paragraph 909, of the Law of December 27, 2017 (mandatory issuance of electronic invoices between private parties effective as of 01/01/2019), Italian Exhibitors shall provide the Organizer with their certified e-mail address (PEC) and/or their 7-digit addressee code.

8. Terms of payment
Together with the Application for Admission, the primary Exhibitor, as provided for under Art. 6, is strictly required to make an advance payment to the Organizer, consisting of:

- advance deposit:
  - €100 per sqm requested
  - €500.00 registration fee
  - €1,000.00 mandatory fee for the Digital Merchandising service;
- plus VAT on the total amount, if applicable.

Payment must be made by bank transfer or credit card payment, within the terms and in the manner set forth in the application for admission, or in any event within 2 weeks from the signing of the Proposal for Participation.
Should the countersigned Proposal for Participation be received after September 10, 2027, the balance payment must be made upon receipt of invoice.

The primary Exhibitor, as provided for in Art. 9 below, upon final confirmation of the stand assigned by the Organizer, is strictly required to pay, as remaining balance:

- the remainder of the total amount due for the allocated exhibition space and the related flat-rate service fee (€34.00/sqm);
- plus 22% VAT on the total amount, if applicable.

Payment must be made by bank transfer or credit card payment, within the terms and in the manner set forth by the Organizer and notified to the primary Exhibitor in due time.

Only Exhibitors who have paid the balance within the deadlines indicated by the Organizer will be allowed access to the exhibition grounds and will have the related services provided. The balance of the participation fees must be strictly paid within the terms indicated following the space allocation notice, and in any case prior to the start of the mobilization phase.

Invoice payments - Exit Pass - In the days immediately preceding the close of the event, the management of Fiera Milano SpA shall compile a summary of any outstanding invoices—issued by either Vitrum Srl or Fiera Milano SpA—for additional services and supplies, as well as any other charges. Any disputes regarding the charges stated must be raised before the closing date of the Exhibition; disputes received after that deadline will no longer be accepted.
Invoices will be published on the Fiera Milano Exhibitor Portal, and the payment of any amount owed by the Exhibitor can be made by bank transfer or credit card by accessing the Fiera Milano Exhibitor Portal.

The removal at the end of the Exhibition of displayed products, as well as stand fittings and any other materials belonging to the Exhibitors, is conditional upon presenting the exit passes to the security personnel at the exhibition grounds gates; these passes will be enabled for exit upon verification of the exact fulfillment by the Exhibitors of all obligations assumed under the Contract towards the Organizer and Fiera Milano.

9. Allocation of stands
PROPOSAL FOR PARTICIPATION
The acceptance of the application for admission will be notified to the contracting party by means of a specific document called "proposal for participation", together with the indication of the assigned space.
Once signed and transmitted to the Organizer via email to expo@iegexpo.it within the deadlines specified therein, this proposal constitutes an official participation contract.
Please note that when sending the proposal for participation, it is mandatory to simultaneously pay the advance deposit, if not already paid within the terms indicated in the application for admission. In this case, the advance deposit will not entitle the party to the benefits indicated in the exhibition space request form of the said application for admission.
By indicating a different recipient for the tax documents, the participant declares to the Organizer that they are participating in the Exhibition in the interest of the recipient of the tax documents, from whom they have obtained a specific mandate.
In the event of any disputes by the recipient of the tax documents, the participant undertakes to settle directly and on their own account any outstanding balance with Vitrum Srl and Fiera Milano SpA.
Due to technical and organizational requirements, VITRUM reserves the right to change, reduce, or modify the allocated exhibition area, without the Exhibitor being entitled to any indemnity or compensation for any reason whatsoever. The Exhibitor will be notified of any such change no later than 30 days prior to the opening of the exhibition.
Stands may only be used for the area and position resulting from the documents issued by the Organizer. **The transfer of the stand, even if granted free of charge or only in part, is strictly prohibited. It is also forbidden to exhibit products not listed on the form attached to the application for admission, or products of another manufacturer, as well as any form of reference made on behalf of another Company. In the event of non-compliance with these regulations, the Organizer has the right to close the exhibition area due to the fault of the Adherent, without refunding the fees paid and without prejudice to any damages caused to the Exhibition, for which the payment of a penalty may be requested**. Exceptionally and provided it is declared, the use of devices or products strictly necessary for any demonstrations of the exhibited product is permitted, as long as this does not constitute an advertising factor for non-exhibiting Companies. **The brand name of the device used by the Exhibitor must be hidden from view.**
The acceptance of the application for admission, as well as the allocation of the area proposed by the Organizer, are confirmed solely and exclusively upon the occurrence of the payment provided for in Art. 8 above.

10. Withdrawal from participation
Before receiving notification of the stand allocation from the Organizer (see Art. 8 and 9) and in any case **no later than September 20, 2027**, the primary Exhibitor who, due to proven impossibility, is unable to honor the commitment made or even part thereof, must request its termination, also in the name and on behalf of any Co-Exhibitors, Represented Companies, and/or Brands, by means of a written communication to be sent in the manner laid down by the Organizer and communicated to the primary Exhibitor in due time.
In this case, VITRUM shall be entitled to retain any amounts already paid for any reason by the withdrawing company, as well as to dispose at its own discretion of the area that may become available.
If the notice of withdrawal is received after the stated deadline, the Exhibitor

shall be obliged to pay the entire participation fee by way of penalty. The foregoing is without prejudice to any legal action and the claim for any damages by VITRUM.

11. Services included in the participation fee

11.1 The flat-rate service fee, defined as €34/sqm, includes:

- Production and distribution of the printed event catalog and Pavilion floor plans, including VITRUM "Specialized" and "Qualities of Glass" themed itineraries identifying Exhibitors, Co-Exhibitors, Represented Companies and/or Brands
- Registration of each primary Exhibitor, Co-Exhibitor, Represented Company and/or Brand in the printed event catalog and publication of the relevant dedicated two-page card in English with logos, stand references, description, technology directory, Specialized and Qualities of Glass and QR Code referring to the online card
- Registration of each primary Exhibitor, Co-exhibitor, Represented Company and/or Brand in the Pavilion floor plans distributed at the Fair
- A copy of the catalog and floor plans of the Pavilions for each primary Exhibitor, Co-Exhibitor, Represented Company and/or Brand
- Provision of personalized links for each primary Exhibitor, Co-Exhibitor, Represented Company and/or Brand to invite clients and VIP guests free of charge
- One car parking space in the grounds, for each Exhibitor plus 1 further space for each additional 256 sqm of fair space
- Wi-Fi service
- Stand number sign
- Entrance passes for exhibitor staff as follows:
  - Up to 16 sqm: 4 passes
  - From 17 sqm to 32 sqm: 8 passes
  - From 33 sqm to 64 sqm: 12 passes
  - From 65 sqm to 128 sqm: 16 passes
  - From 129 sqm to 512 sqm: 20 passes
  - over 512 sqm: 40 passes
- Stand cleaning service
- Fire extinguishers as required by law
- Payment of Council Tax (see Art. 22)
- Payment of copyright royalties for audio/visual equipment installed within the stands, subject to taxation requirements. This, however, does not cover taxes for live performances (by singers and/or musical instruments) which the Exhibitor must pay at the SIAE offices in the city. Fees pursuant to Art. 72 and 73 bis of law No. 633/1941 due to performing artists and record producers holding rights on recordings, and by SCF-Consorzio Fonografici on their behalf are also included.
  However, fees due to performing artists and record producers under Art. 73 of the aforesaid law for records and music videos played at fashion shows, and in DJ settings with or without dance performances are not included. The organizers of said events are therefore invited to contact SCF-Consorzio Fonografici, Via Leone XIII 14, in Milan, to comply with the requirements set forth by current legislation.
- Activation of a 32A / 400V 3P+N+E CEE outlet up to 10 KW installed power
- General surveillance of pavilions and general fire prevention. Special security services can be requested from Fiera Milano SpA, and paid for using the Eservice purchase card of the Exhibitor's portal of Fiera Milano.

11.2 The application fee, set at €500.00 per primary Exhibitor, Co-Exhibitor, Represented Company and/or Brand, covers the costs of handling the application paperwork.

11.3 The fee for the Digital Merchandising service, set at €1,000.00 per primary Exhibitor, Co-Exhibitor, Represented Company and/or Brand, includes: the publication of the dedicated card in the online catalog in English and Italian and automatic translation into 8 other languages, with stand references, description, technology directory, Specialized and Qualities of Glass; the publication of 3 editorials (media) in VITRUM Magazine with filming on VITRUM social channels, of which one published in the pre-event period (01/10/2027 - 31/10/2027), one in the month of the event (01/11/2027 - 30/11/2027) and one in the post-event period (01/12/2027 - 31/12/2027).

12 Additional car parking

Parking can be booked for the entire duration of the fair at the rates indicated in the virtual store, using the Eservice purchase card of the Exhibitor's portal.

13 Official Catalog

VITRUM edits the Official Fair Catalog, in paper copy and online, containing the following information:

- General information and services
- Map of the Fair area
- Products directory
- List of Exhibitors, Co-Exhibitors, Represented Companies and Brands by product type
- Alphabetical list of Exhibitors, Co-Exhibitors, Represented Companies and Brands, with relative dedicated two-page card in English (and translation into 8 other languages in the online version) with logos, stand references, description, technology directory, Specialized and Qualities of Glass and references of Co-Exhibitors, Represented Companies and Brands and Sales Representatives.

References, descriptions and information, including that relating to products exhibited by Co-Exhibitors, Represented Companies and Brands should be indicated by the primary Exhibitor-owner in the dedicated form to be returned with the application form. Any changes must be communicated in writing at least 40 days prior to the Fair. Any changes received after that date may not be included.

VITRUM, while promising to exercise the utmost diligence in compiling the official catalog, disclaims any responsibility for possible errors or omissions and, if necessary, will remedy such omissions or errors in the time and manner it deems most useful and appropriate. The foregoing also applies to any other promotional, informative or service-related publication prepared by the Organizer.

14 Handling of materials, goods and packaging - Customs

The costs of all operations pertaining to introducing machines, equipment, exhibit materials and stand fittings into the Fair area, unloading, placement in the stand, dismantling, and re-shipmen will be paid by the Exhibitor.

For safety reasons, it is prohibited for Exhibitors and Stand Fitters working on their behalf, to use their own forklifts, overhead cranes, overhead platforms, etc., inside the Fair area; they can refer to the Official Forwarding Agents for these needs in order to guarantee strict compliance with safety standards. The foregoing requirements do not apply to vehicles with a crane arm onboard which may work inside the pavilions only if duly equipped with pipes that convey exhaust fumes outside. In some cases, exemptions can be obtained by submitting a properly justified request to the Servizio Logistica Quartiere di Fiera Milano (Quartiere Fiera di Milano Logistics Service), listing the name of the driver and accompanied by documents certifying the suitability of the vehicles to be used. If authorization is given, the applicants will be charged for the administrative fees and authorization processing fees (more details are available from the Servizio Logistica Quartiere di Fiera Milano).

The official Fiera Milano SpA forwarding agents are available to perform any operation pertaining to the introduction and customs clearance of machines and materials, including crane and pickup service, storage and re-delivery of packaging materials, as well as the re-shipment of materials at the end of the Fair. For more details, refer to Art. 5 of the Technical Regulations.

15 Insurance- Liability limits

15.1 - "All Risks" policy Exhibitors' goods (except for Terrorism and Sabotage)

It is mandatory for the Exhibitor/Co-exhibitor to have an "All Risks" Policy on the total value of all goods, machinery, equipment and fittings brought to and/or used in the Fair area with a clause waiving recourse against the Organizer, Fondazione Fiera Milano, Fiera Milano, subsidiaries and associates thereof, and third parties in any way involved in the organization of the Event, except in cases of willful misconduct by the same.

In the event of recourse by its Insurer, the Exhibitor/Co-Exhibitor warrants to hold the aforementioned Parties harmless.

Fiera Milano, in agreement with the Organizer shall, provide the Exhibitor/Co-exhibitor, at no charge to them, with an "All Risks" policy on goods, machinery, equipment and fittings brought to and/or used in the Fair area, for a capital sum of € 25,000.00.

A 10% deductible shall apply to any claim for theft-related loss, with a minimum of €250.00. Said deductibles shall double for thefts reported after the Fair ends.

This policy will not be effective in the case of:

- sale to the public with immediate delivery of exhibits, during Events where such activity is prohibited;
- early abandonment of the stand;
- delay, without notice, in the collection of materials left in the Fair area.

In the Exhibitor Portal of Fiera Milano, Manage Documents- Insurance section, there is a link to receive information on "All Risks" insurance cover, provided free of charge by Fiera Milano.

For further information contact: Marsh S.p.A. Tel. (+39) 02 48538909 e-mail: fiera.milano@marsh.com

15.2. - Third Party Liability Insurance Policy -This insurance will be automatically taken out by Fiera Milano for all Exhibitors, making them part of their own general policy, without any charge to them, which provides for a limit of not less than €100,000,000.00 (one hundred million). It is specified that this coverage acts as excess coverage (on a secondary basis) with respect to the policy activated by the Exhibitors; please refer to the Technical Regulations of the Fieramilano Exhibition Grounds.

15.3. - Limitations of liability -The Exhibitor/Co-Exhibitor, agrees to release the Organizer and Fiera Milano from any liability for consequential damages, image damages, loss of turnover, etc.

Given that each Exhibitor/Co-exhibitor is the custodian of the reserved fair spaces and responsible for the goods contained therein, the Exhibitor/Co-exhibitor assumes all responsibility and expressly exonerates the Organizer and Fiera Milano from any liability whatsoever for goods and/or values covered and/or not covered and/or in excess of what is set forth in Art. 15.1 above, including for direct damage.

The Exhibitor/Co-Exhibitor acknowledges and agrees that the Organizer, Fondazione Fiera Milano, Fiera Milano and subsidiary and associate companies thereof, will not provide insurance services/policies, nor will they endeavor to procure any advantage that is in violation of laws, regulations, acts of competent authorities or that may expose the Organizer, Fondazione Fiera Milano, Fiera Milano, its Subsidiaries and their related companies to sanctions, violation of prohibitions or restrictions established by UN Security Council resolutions or other applicable economic and trade sanctions regulations. Therefore, the Exhibitor/Co-Exhibitor subject to such restrictions shall not have any insurance coverage and hereby indemnifies the Organizer, Fondazione Fiera Milano, Fiera Milano, the Subsidiaries and companies related to them

from any and all liability for any and all damaging events it may suffer within the Fair area available to/owned/managed by the aforementioned parties, nor may it pursue any action, claim or demand against the same for the aforementioned events.

16 Technical services, cleaning

Within the limits permitted by the existing facilities, running water and other technical services are provided, however hook-up to the nearest outlet and consumption are at Exhibitor's expense. Initial activation of a 32A / 400V 3P+N+E CEE outlet up to 10 KW installed power, as well as cleaning of exhibition areas, are included in the flat-rate service fee, (Art. 11). Cleaning of the fair areas is understood as cleaning of the floors and any covering such as carpet (washing of the carpet and elimination of stains or traces is not included), dusting of furnishings installed in the stand (excluding those on display), emptying of waste baskets. Furnishings, materials, equipment and products which are part of the display are not included in this service.

In order to schedule the proper provision of technical services such as hangings, water fittings, electrical, 24-hour power, etc., the Exhibitor must place orders on the Exhibitor Portal at least 20 days before the start of the event. After this deadline, subject to feasibility verification, services will be provided after completion of previously booked work.

N.B.: After the aforementioned deadline also, the rates of water systems, compressed air fittings, building services, stand cleaning, security personnel and temporary modification work to fire protection systems will be increased by 30%.

17 Exhibitors' documents: Fiera Milano Exhibitors' portal

After registering, Exhibitors will receive their own Fair ID to access the Fiera Milano SpA Exhibitors' portal by e-mail. After being notified of the stand allocation THE EXHIBITOR CAN VIEW the layout of the allocated stand with the description of the technical facilities available.

Mandatory documents for requesting technical services, installation work and various services provided by Fiera Milano SpA are also available online; the online shop also offers optional marketing services. The Exhibitors' portal also indicates which documents, for technical or safety reasons, must be completed online by the Exhibitor. Fiera Milano Exhibitors' portal also provides a list of the orders made by the Exhibitor for VITRUM 27 and online accreditation instructions for the "fair badges" and for the "stand setup-dismantling badges".

The Technical Regulations (which supplement the General Regulations and are to the same effect) can be viewed on the www.fieramilano.it website.

18 Access to and setting up of stands

Access to the fair area for delivery and shipping of materials and the time schedule for setting up and dismantling stands are listed in the "Set Up and Dismantling procedures" available on the Fiera Milano Exhibitors' portal (www.fieramilano.it – Calendar –Exhibitors – Fairs – VITRUM - Technical Information). In any case, the stand set up and arrangement of products or merchandise must be completed by 2.00 p.m. of the day prior to the Fair opening day. VITRUM may use stands which have not been set up within the 24 hours prior to the Fair opening at its sole discretion. In this case, the Exhibitor to whom the stand was originally allocated shall pay the Participation Fee and cost of services provided in any case. To ensure an overall cohesive look, stands must be outfitted and furnished according to the Technical Regulations listed below. The stand fittings shall remain inside the surface area of the allocated stand and can be as high as allowed by the technical and structural characteristics of the pavilion itself.

The front may be fitted with closed structures, spanning up to 50% of the front.

Where it is impossible, e.g. due to legal provisions or compliance with safety regulations, to comply with the provisions of the above paragraph, it will be the responsibility of the Exhibitor/Co-Exhibitor to identify and propose to the Organizer and Fiera Milano the solution having least impact (e.g. through the use of glass perimeter walls) on the objective that these regulations intend to promote through the aforementioned provision, i.e., not to impede the visibility of the stands of other exhibitors present at the event. The Organizer and Fiera Milano shall decide jointly on any exceptions to the aforementioned provision by means of the proposed solution.

All fittings and related systems must be designed in a professional manner and built in compliance with accident- and fire-prevention standards. All safety regulations must also be observed within the scope of work performed by the Exhibitors' chosen subcontractors (for assembly/disassembly and related activities). The construction drawing for any stand occupying a surface of 100 sqm, or more or above 3 m in height must be submitted to Fiera Milano for approval at least 60 days prior to the Fair opening date. To such effect, the Exhibitor may upload the stand construction drawing to the Fiera Milano Exhibitors' portal. Every part of the fittings, furniture and enclosure shall be properly finished on all sides. The Organizer and Fiera Milano shall jointly decide on any exceptions. The applicable requirements and specific standards are listed in the "Technical Regulations", to be made available at a later date.

19 Prohibitions

In general, anything that might prejudice, disturb or negatively affect the purposes and smooth running of the fair is prohibited. The following are specifically prohibited:

- distributing printed and advertising materials outside the fair areas
- any form of sound transmission that has not been previously authorized
- performing shows or entertainment of any kind, nature and type that has not been previously authorized by the Organizer
- selling with immediate delivery of products on display
- displaying price tags;
- exhibiting machinery, equipment and other devices that do not comply with the safety standards provided for by law.

Further explanations and details are contained in the Technical Regulations.

20 Dismantling of stands

After the Fair closes, stands must be dismantled by and no later than the designated deadline. Failure to observe this rule will result in Fiera Milano SpA (which disclaims all responsibility for any goods, materials or other items left in the stand), arranging for their removal and storage at the sole risk and expense of the defaulting Exhibitor. After two months, items that have not been claimed by their rightful owner may be sold at auction, and proceeds net of expenses and costs incurred by the Organizer will be credited to the Exhibitor. Furthermore, Exhibitors who leave goods and materials at the Fair area shall pay Fiera Milano SpA a fee for the period of occupancy beyond the Fair closing date.

21 Protection of industrial and intellectual property rights

By signing the application form, the Exhibitor undertakes to assume all civil and criminal responsibilities for everything exhibited in its stand – thereby holding harmless Fiera Milano and the Organizer of any liability - should any third party file a claim for infringement of their industrial and/or intellectual property rights over the items exhibited.

The Exhibitor undertakes to respect the industrial property rights of third parties. Any violation ascertained by the appropriate authorities, if notified to VITRUM, does not imply that the latter may adopt restrictive measures against the counterfeiter during the Fair, but authorizes VITRUM to ban the counterfeiter from future Fairs.

22 Council Tax

Without prejudice to the participation regulations, the Exhibitor is required to pay the Municipality of Rho the fee stipulated pursuant to Law No. 160 of 27/12/2019. Following the agreements concluded by Fiera Milano with the Municipality of Rho in the interest of the exhibitors, this fee is set at a flat rate based on the area occupied by the Exhibition. To avoid burdening Exhibitors with the procedures required to pay this directly, this tax is included in the participation fee and Fiera Milano will subsequently make the relevant payment to the Municipality of Rho.

23 SIAE

With regard to the distribution of audio-visual or multimedia devices containing work or parts of work subject to intellectual property rights under Law 22.4.1941 No. 633, the Exhibitor shall pay the copyright royalties, as well as the authentication cost of the media, as provided for by Art. 181 bis of the aforementioned law. **The illicit use of intellectual property as well as the failure to affix the SIAE stamp on the aforesaid media are punishable by Art. 171 and subsequent of Law 633/41.**

24 Observance of the law

The Exhibitor must observe all laws, regulations and standard practices, especially those regarding personnel, accidents and fire prevention.

25 Force majeure

VITRUM Srl a Socio Unico shall not be liable for any loss or damage suffered by the Exhibitor as a result of the cancellation of the Fair or any part thereof, due to circumstances beyond the reasonable control of the Organizers, such as but not limited to, strikes, industrial disputes, riots, transportation network failures, malicious damage, pandemics, legal provisions or governmental impositions, regulations or directives, accidents, plant or machinery failures, floods, fires, storms, or failures of suppliers or subcontractors. If VITRUM Srl a Socio Unico is able to arrange alternate exhibit space for the Fair, the event will continue but will be varied as needed and the assigned spaces may be changed accordingly, without the prior consent of the Exhibitor. The Exhibitor is required to take out adequate insurance to cover its losses in the event that the Fair, or any part thereof, is canceled or suspended and the Organizers are unable to arrange an alternate space that is acceptable to the Exhibitor.

26 Claims

All claims must be submitted in writing to VITRUM, which shall make an indisputable decision based on the general interest of the Fair.

27 Other rules and regulations

VITRUM reserves the right to immediately exclude from the Fair any Exhibitor who has infringed the General Regulations. In this case no reimbursement will be authorized. A firm excluded from a Fair might not be admitted to subsequent Fairs. In the event of non-compliance with the general regulations, VITRUM and/or Fiera Milano SpA reserve the right - above and beyond the foregoing - to apply fines or penalties.

Vitrum reserves the right to establish rules and regulations at its discretion, as deemed appropriate to better manage the Fair and pertaining services. Such rules and regulations carry the same weight as these Regulations and are compulsory.

28 Processing of the Exhibitor's Personal Data

The Exhibitor declares to have been informed that the provisions of Regulation (EU) 2016/679 – General Data Protection Regulation (hereinafter, "GDPR") concern the processing of data relating to natural persons (hereinafter, "Personal Data") and are not applicable to legal entities (companies), bodies, and associations, or to information (so-called "Information") referring to such entities. For the latter, only the regulations on sending commercial electronic

communications remain applicable, for which the Exhibitor (legal entity, body, or association) is also required to give prior consent for sending such communications for direct marketing purposes.

Personal Data relating to the Exhibitor, where operating as a sole proprietorship, small entrepreneur, or professional, as well as to their relevant representatives, officers, employees, and collaborators, indicated in the Application for Admission or provided subsequently, or also acquired from third parties (e.g., partners, commercial information companies, etc.) or within the context of the Exhibition, are collected and processed by Vitrum s.r.l. and Italian Exhibitions Group S.p.A. – as Joint Data Controllers (hereinafter, "Joint Controllers") – and by Fiera Milano S.p.A., as an independent Data Controller, for their respective areas of competence, under the terms described in the privacy notices attached below as Annex I(A) and Annex I(B), respectively.

The attached notices referred to in the preceding paragraph are provided by the Joint Controllers and by Fiera Milano S.p.A. pursuant to Articles 13 and 14 of the GDPR, and the Exhibitor undertakes to communicate them to the natural persons (their representatives, officers, employees, and collaborators) to whom the Personal Data provided for the purposes of participating in the Exhibition and supplying the related services refer. The Exhibitor also guarantees that the Personal Data can be lawfully used by the Joint Controllers and by Fiera Milano S.p.A. for such purposes, and undertakes to hold harmless and/or indemnify the latter for any cost or damage arising from the breach by the Exhibitor of the obligations assumed under this article.

Art. 29 – Use of images of the Exhibitor taken during the Fair

In relation to images concerning the Exhibitor, their stand, and/or their representatives, officers, employees, and collaborators, acquired or captured by any means (including, but not limited to, photography, video recording, or audiovisual recording) within the context of the Exhibition, the Exhibitor declares to have been informed, pursuant to Regulation (EU) 2016/679 – General Data Protection Regulation, of the collection and processing of such images by the Joint Controllers and Fiera Milano S.p.A., and of their potential distribution for dissemination, promotional, and commercial purposes. The Exhibitor grants the latter parties the right to use the aforementioned images for such purposes free of charge, pursuant to Articles 96 and 97 of Law no. 633/1941 on Copyright, thereby authorizing them without any restriction to utilize them through any means of communication (including, as a mere non-limiting example: brochures, presentations, catalogs, and generally any paper-based materials required for dissemination and promotion, television, pay-per-view, etc.) and distribution via the internet (company website, social networks, etc.) or through magazines and other publications, including online versions, with the widest right of adaptation and reproduction for all purposes permitted by law.

To this end, the Exhibitor declares and guarantees to the Joint Controllers and Fiera Milano S.p.A. that they have:

(1) collected, where necessary, the consent of the individuals concerned, subject to an appropriate privacy policy, for the processing, including by the Joint Controllers and Fiera Milano S.p.A., of data relating to their photos, video recordings, etc., including their disclosure for dissemination, promotional, and advertising purposes pursuant to Regulation (EU) 2016/679 – General Data Protection Regulation;

(2) acquired the liability waiver for the use and disclosure of the images, pursuant to Articles 96 and 97 of Law no. 633/1941 on Copyright, under the terms set forth above, from the natural persons portrayed or filmed, their representatives, officers, employees, and collaborators, on the occasion of the aforementioned event.

In relation to points (1) and (2) above, the Exhibitor undertakes to hold harmless and indemnify the Joint Controllers and Fiera Milano S.p.A. from any claim, legal action, or demand brought by the above-mentioned individuals regarding the stated use and distribution of the respective images referenced above.

30. Work safety

Exhibitors shall scrupulously comply with all statutory regulations, and especially those regarding the health and physical safety of workers as well as the applicable labor and social security laws for the duration of the Fair, while setting up and dismantling the stand, and any other related activity.

Exhibitors also undertake to ensure that they, and all companies working on their behalf, during the setting up and dismantling of the stand and in relation to any other inherent or related activity, comply with the Technical Regulations of Fiera Milano and specifically state they are cognizant of any and all additions to the requirements set out in Art. 88 of Legislative Decree 81/2008, sub-section 2-bis and implemented under Ministerial Decree dated 22.7.2014, issued by the Ministry of Labor and Social Policy and by the Ministry of Health.

The Technical Regulations, which can be viewed on the www.fieramilano.it website in the "Exhibitors – Technical documents – Fair link" contain precautionary rules for the safety of the fair (fire prevention, electrical systems, environmental protection, etc.) but do not cover compliance with specific safety standards for activities performed or subcontracted by the Exhibitor to other companies (setting up and dismantling stands and related activities). The Exhibitor is responsible for complying with these specific safety standards.

To facilitate compliance with the obligations contained in the aforesaid Ministerial Decree dated 22.7.2014, the Organizer has made the documents contained in Attachments IV and V of the Ministerial Decree available on its own website and on that of Fiera Milano.

Instances of non-compliance with the aforementioned safety standards, especially when they might compromise the overall safety of the pavilions and attendees, may lead the Organizer and/or Fiera Milano to take action during random safety checks and may result in the immediate closure of the stand. The Exhibitor and all of their subcontractors are liable for any and all other consequences arising from or in relation to their non-compliance with the above-mentioned regulations.

Fiera Milano is authorized to remove from the Fair areas, the personnel of companies/contractors/self-employed staff working on behalf of the Exhibitor and not in possession of an identification card, pursuant to Articles 18, sub-section 1 u), 21 sub-section 1 c), 26 sub-section 8 of Legislative Decree 81/08 and non-EU personnel who, even if provided with proof of identity as above, are not in possession of a valid and legible residence permit or a valid and legible ID card.

The company employing them and responsible for the expelled personnel will be charged with the violation.

The Exhibitor who, in their capacity as commissioning party, authorized the company to work on his stand on their behalf, will be notified of the violation.

The Exhibitor is responsible for compliance with all prevailing regulations of anything built and implemented by them and on their behalf with regard to the installations, structures, systems and products displayed at their stand as well as any related activities.

Exhibitors are required to appoint a "Fair Safety Representative" (RSE) who, for safety purposes, is responsible for any activities performed on behalf of the Exhibitor for the entire duration of their stay in the fair area. At the Exhibitor's discretion, and under their full responsibility, the RSE may be a different person for each of the three stages mentioned (setting up - fair - dismantling).

The name of the RSE and contact details (e-mail, phone number, etc.) must be communicated to the Organizer (and by the latter to Fiera Milano), prior to stand set-up and, in any case, before the workers and materials have access the Fiera Milano fair area.

The names and phone numbers of the Fair Safety Representatives of adjacent stands will be made available to Exhibitors by the Organizer. Exhibitors are required to coordinate with the other RSEs from adjacent stands through their Fair Safety Representative so that by sharing information, they can identify any safety measures to be applied to eliminate or, where not possible, to reduce to a minimum any risks of interference, should they exist.

If the name of the Fair Safety Representative is not provided, the "Stand Manager" will be the legal representative of the Exhibitor. Any changes should be promptly notified to the Organizer.

The most significant requirement for the commissioning party (Exhibitor) concerns the DUVRI [Unified Document for the Assessment of Interference Risks], or, where necessary, the PSC [Safety and Coordination Plan] in which case, respectively, the regulation contained in Article 26 of Legislative Decree 81/08, or that contained in Title IV of the same decree is to be applied, pursuant to the statutory provisions in the Inter-ministerial Decree dated 22 July 2014.

Such documentation must be uploaded to the appropriate section of the Fiera Milano exhibitors' platform, available to the competent authorities (ATS [Health Safety Agencies] and law enforcement) and be present at the stand for the entire duration of the fair (including set-up and disassembly).

31. Stand security and Custody

Fiera Milano SpA provides a general security service for the pavilions. Special security services can be requested from Fiera Milano SpA, for a fee, through the Exhibitor Portal.

Exhibitors are responsible for security at their stands during the Fair opening times and they must also directly provide for the safekeeping of materials brought into the stand during the designated set-up and dismantling periods of the Fair and during the scheduled opening hours.

Valuable objects that can be easily transported should be kept in locked drawers or cabinets.

Vitrum and Fiera Milano decline any liability for goods, materials and anything else left unattended by exhibitors in the Fair area.

For parking inside the Fair area: the Organizer and Fiera Milano decline any liability as regards custody and damage or theft, for vehicles parked inside the Fair area. Parking is permitted for vehicles with the designated sticker only in the parking spaces and during the opening hours of the Fair area.

32. Security and safety measures for the protection of people in the Fiera Milano area

In accordance with the provisions of Public Safety Authorities, Fiera Milano has adopted infrastructural, organizational and operational measures deemed suitable to ensure the safety of all people at the Fair area, regardless of the reason for their presence. Fiera Milano therefore holds the indisputable right to implement at its discretion, and as a non-exhaustive example:

a) specific Fair area access and exit procedures (specific routes or reserved lanes, hours, access and traffic flow control systems), which might also be differentiated by category of Fair users;

b) security checks, which might also involve fixed or portable equipment and technical devices, on people, baggage, personal effects, transport and work equipment, to be carried out at the entrances to the Fair, within the Fair and if required at the exits. The checks are performed by Fiera Milano personnel or sub-contracted third parties. Without prejudice to the matter being reported to the Police and their subsequent law enforcement actions, anyone who refuses to undergo a security check will be denied admission to the Fair area and if already within the Fair area, will be escorted out immediately. Everyone undergoing a security check is expected to fully collaborate, so that the process may be carried out as efficiently and as quickly as the nature of the activity allows. Based on the results of the check, and without prejudice to the matter being reported to the Police or their subsequent law enforcement action, Fiera Milano shall retain the indisputable right to deny access to the Fair area to people or items deemed suspicious. If already in the Fair area, said individuals will be escorted out immediately, while the owners of suspicious objects will be responsible for immediately removing any suspicious items and bear the costs and responsibility thereof. Fiera Milano is not required to provide storage or safekeeping service for suspicious objects;

c) changes or limitations of access routes and circulation of pedestrian and motor-vehicle traffic within the Fair area, even with placement of barriers, New Jersey walls, bollards, and similar devices;

d) forcible removal, at the risk and expense of the owner, of transportation or work equipment, items or personal effects deemed suspicious or that in any case impede the execution of security checks.

The provisions of this paragraph also apply to all Visitors and guests attending the Fair.

33. Waste management

The collection, retention, transport, and recovery of waste must be carried out in compliance with Legislative Decree No. 152 of 2006, as amended and supplemented.

During the setup and dismantling periods of the exhibition areas, the Exhibitor is required to remove waste from the Exhibition Grounds daily, ensuring its delivery to authorized recovery/disposal plants in accordance with current legislation.

Pursuant to the Technical Regulations, the Exhibitor and their designees are jointly and severally liable for the proper management of waste produced within their assigned exhibition space. The Exhibitor (or their designees) is prohibited from abandoning waste of any kind inside the exhibition spaces, both within the assigned space and in the common areas (aisles, traffic lanes, etc.). The Exhibitor or their designees may arrange for the removal of the produced waste directly or by employing professional entities authorized in waste management and registered with the Albo Nazionale Gestori Ambientali (National Register of Environmental Managers), which can be consulted at: https://www.albonazionalegestoriambientali.it/Public/ElenchiIscritti.

The ban on abandoning waste and the related obligation for its proper management and disposal must be understood as referring to all waste and residual materials resulting from stand setup/dismantling activities (packaging; materials used such as walls, false ceilings, floor coverings, etc.).

The Exhibitor, who must guarantee the proper management of waste materials and scraps from the processing of materials used for the setup of their exhibition space and consider the connected waste production right from the design phase, must submit—pursuant to the Technical Regulations through the Fiera Milano Exhibitor Portal—a commercial agreement with an authorized waste management company appointed for the removal of the same from the exhibition grounds, or an equivalent document providing evidence of the management methods they intend to adopt.

Conversely, waste resulting from stand cleaning carried out by the companies appointed by FIERA MILANO S.p.A. during the exhibition is excluded from this obligation.

In the event of waste abandonment in the pavilions or within the Exhibition Grounds, Fiera Milano will apply a penalty of up to €5,000.00 (five thousand/00), without prejudice to compensation for further damages, additionally reserving the right to remove the responsible personnel from the grounds and to take legal action.

The Exhibitor is required to comply with all applicable local regulations and with the provisions set forth in the Regulations for the management of municipal solid waste collection services, separate collection, and urban hygiene adopted by the Municipality of Rho—pursuant to Art. 198, paragraph 3 of Legislative Decree 152/2006. During the course of the event, the Exhibitor and their designees are required to separately collect the waste produced, sorting it by type and nature into the bins located inside the pavilions and in the specially equipped outdoor areas. In this way, the distinct management of the different types of waste can be guaranteed and their recovery promoted within controlled supply chains.

During the days of the exhibition, specially equipped areas dedicated to separate waste collection are available to exhibitors outside the pavilions. It is permitted to deposit only municipal-type waste, separating it into: paper, cardboard, plastic, organic waste, and glass-metal/cans, which Fiera Milano transfers to the public collection circuit of the Municipality of Rho. For waste other than these categories, such as used cooking oils, it will be the responsibility of the exhibitor to arrange for its removal from the exhibition grounds by means of their own appointed supplier.

34. Food services and catering

Fiera Milano makes restaurant and catering services available to exhibitors. These may be purchased using the Eservice purchase card of the Exhibitor's portal and/or by contacting ristorazione@fieramilano.it - tel. 02. 4997.7425/6365/7805.

As regards catering businesses sourced from outside the Fiera Milano Group and those exhibitors who independently serve beverages and food items, access and restocking of the same through payment for the required access passes, along with submission of the required documentation.

The procedure can be accessed in the required documentation-catering section of the Exhibitors' portal and in the Fiera Milano Technical Regulations

By accepting these General Regulations for the fair, the stand holder who independently provides catering services not sourced directly from Fiera Milano, acknowledges they are cognizant of the contents of DPCM dated 17 May 2020 and any successive amendments and additions.

35. Jurisdiction and Governing Law

For any disputes arising regarding the application, interpretation and execution of all of the provisions within these General Regulations and in all subsequent notifications, additions, amendments and waivers, the Italian language text/s shall be exclusively taken into consideration. The governing law shall be Italian law, under the exclusive jurisdiction of the Milan court.

35a. Inspections

Except as stipulated in the individual regulations, surveillance concerning compliance with the General Regulations is entrusted to the staff of VITRUM Srl a Socio Unico, staff of the relative Fiera Milano offices and, to any third parties (natural persons or legal entities) designated by the same.

36. Protection of personal dignity, respect, and decorum of the event

Participants, as well as any parties appointed or authorized by them, including suppliers, are required to set up stands, services, promotional activities, performances, communications, and initiatives in compliance with the principles of human dignity, cultural pluralism, and the common sense of decorum.

It is strictly forbidden to create or promote, within the exhibition spaces or in connection with the event, any setups, displays, services, activities, or communications that may be offensive, discriminatory, defamatory, or insulting toward:

- religions, beliefs, or religious symbols;
- gender identity, sexual orientation, or personal conditions;
- ethnic groups, nationalities, cultures, or racial backgrounds;
- social categories or persons with disabilities;
- any other element protected by the principles of respect, inclusion, and non-discrimination.

Activities or displays that, due to their methods, symbolism, or content, may harm the image of the event, cause public disturbance, or compromise the safety and serenity of the event are also prohibited.

The Organizer reserves the indisputable right to evaluate the compliance of setups and activities with these principles and, where necessary, to request immediate modifications to the stands, suspend activities, or order the removal of non-compliant elements, without this giving rise to any right to indemnities or refunds of any kind.

Violation of this article may result, in addition to the measures set forth in the preceding paragraph, in the termination of the contract pursuant to Art. 1456 of the Italian Civil Code, as well as compensation for all damages, including damage to reputation/image, suffered by the Organizer.

37. Legislative Decree 231/2001, Code of Ethics and Termination

VITRUM SRL has approved and adopted the Organization, Management, and Control Model pursuant to Legislative Decree no. 231 of June 8, 2001 (hereinafter "Model") and its own Code of Ethics, which states the ethical principles guiding its business activities. These documents are accessible in electronic format at the address https://vitrumexpo.com/

The contracting party/participant declares to be familiar with the regulations under Legislative Decree 231/2001, shares the values set forth in the Code of Ethics of VITRUM SRL and the principles of the aforementioned legislation, and undertakes to refrain from any behavior contrary to them during the execution of this contract.

Any violation of these principles shall be considered a breach of contract and

shall therefore entitle VITRUM SRL to terminate the ongoing relationship pursuant to and for the purposes of Article 1456 of the Italian Civil Code.
